

I have experience managing digital projects in an agency setting. I can effectively prioritize as well as outsource project pieces. My knowledge of HTML, PHP, Ruby on Rails, JavaScript and Adobe helps me understand the workflow and manage each task. I understand SEO and SEM and how it is essential to make a website a reference so it maintains visibility. I have a passion for digital projects and I produced one myself: www.taxreliefinc.com. Within the first month, the blog postings were used in Google searches, evidence that people are using the website as a reference.

Other projects I have managed in various positions include:

www.lipidu.com

www.enlyterx.com

www.thephysicianexchange.com

I look forward to hearing from you regarding this opportunity!

Please give me a call at (908) 507-3363 to discuss how I can add value to your firm.

Best Regards,

Craig Frey
